And What Have You

By BOB CRAIG

Because of a mix-up some where down the line, word did not get out until this week that the annual All Sports Banquet will be held this Friday night. But unless you already have other plans that can not be changed, I hope that you will attend. This has been a good sports year for Hamlin both for the boys and the girls and these youngsters and their coaches are deserving of your support. On top of that you will have a chance to hear a good speaker in Spike Dykes.

Tickets may be purchased from several sources or they can be bought at the door Friday night.

Looking back on the voter apathy for the Democratic Primary held Saturday, May 4, one can only wonder what it takes to get people to turn out for elections. Voter registration is low enough but when only about 35 percent of those registered turn out to vote, then you have to wonder.

Some years there is very little local interest but this year this was not the case as there were several locally contested races that added to a strong campaign for both the senate and the house seats from this district. It was not a matter of the candidates themselves not working to create interest as there were many active campaigns that should have drawn out the voters.

James Roberts, writing in the Andrews County News, says that his father, who he affectionately calls the Old'un used to argue that the only ballot that really drew record turnouts at the polls was one featuring someone that attracted the bile vote.

The bile vote, he explained, was the one that would make the citizen go an extra mile in order to scratch a name. It's the "agin" vote that empties the bile, vents the spleen, and lowers the blood pressure.

A study of history proves that in most instances, a record turnout at the polls occurred because people wanted to vote against something or somebody rather than for an issue or person. That's the bile vote, he says.

And maybe that was our problem in the last election, people were just not mad at anybody. But if this is true then it is a rather sad commentary on our democratic system and its future.

If our form of government is to meet the needs of its people then the people are going to have to get involved and vote for the kind of people that they think will better represent them and not just wait until some elected official makes a mess of things and vote them out in anger.

The bile vote will only eliminate a problem after it has developed, it cannot bring about good government or good representation.

Voters will be asked to go to the polls again June 1 and decide two very important races. Neither race is expected to bring out this "agin" vote but this does not mean that you can sit idly by and let someone else decide who will represent you as County Judge or as State Representative.

Now while we used Roberts' comments on the bile vote to emphasize the need for a better voter turnout in the second primary he brought up the matter for an entirely different subject. He is upset at Ralph Nader again and wants to put him on a national ballot and see if he wouldn't draw the largest anti-vote in history.

The thing that has Roberts so upset now is the new prescription bottle with a lid that he claims must have been invented by some three-

FFA Chapter Earns Top Awards At Area Meeting

The Hamlin FFA Chapter and individual members of the Chapter represented Hamlin well at the Area II FFA Convention held Friday and Saturday at Pecos High School.

The Hamlin FFA Chapter received a superior rating in the state chapter rating contest. This is the thirteenth year for the chapter to receive a superior rating, the highest rating given to a chapter by the Texas Association of Future Farmers of America. In the National Chapter Contest, the Hamlin Chapter placed first in Area II. This will allow the chapter to compete in state and national competition in the National Chapter Contest.

The Hamlin Chapter made it three out of three in winning area competition in the Building Our American Communities award program. This was the third year for the Hamlin Chapter to enter BOAC competition, and it was also the third time the chapter has won area. The chapter will now compete on state level and if it places in the top ten per cent of the state chapters will compete on the national level. This year's chapter BOAC project was working to help establish a Child Care Center in Hamlin.

Individual chapter members won six out of nine awards they applied for. Rickey Gruben was the only double winner as he won both the Crop Production and Beef Production awards which are part of the National FFA Foundation Awards Program. Other National Foundation award winners were Ricky Crowley, in Home

Improvement; George Gonzalez, in Swine Production; and Gary Neal, in Outdoor Recreation. In the Agriculture Cooperative Awards, awards available to students enrolled in the Cooperative Part-time Training Program, Gary Hertel placed first in the Farm Machinery segment of competition. compete on the state level as representatives of Area II.

Only three per cent of the active FFA members in Texas can receive the Lone Star Farmer Degree, the highest degree conferred upon members by the Texas Association. Only one member out of every thousand receives the American Farmer Degree, the highest degree a member can attain in Future Farmer work.

During the Saturday morning session of the convention, Cecil Sellers received the Honorary Lone Star Farmer Degree. Mr. Sellers was cited for his outstanding service to the Hamlin Chapter and for his service to chapters in the surrounding area. Charles Sellers received the award for his father.

FROM THE FILES . . .

FIFTY YEARS AGO
(May 9, 1924)

It appears that Jones County is going to build some roads. For a long time now this county has been watching other sections build roads, going through the experimental stage and now we are going the show the world what Jones County can do. The election Saturday was over overwhelmingly for the bonds. For awhile there was some doubt as to the outcome, but from the way the votes counted it now seems that this part of the county wants more and better roads. There were 1481 votes for and 244 against.

On next Thursday night, May 15, the people of the Afton community will give a good old-fashioned cream supper to secure funds to buy a piano for their church. All who can attend are invited to come.

The Herald is authorized to say that the Hamlin School Board has chosen Mr. C. G. Green of Rockdale as the head of Hamlin Public Schools for the next year. Information is that Mr. Green has served as Superintendent at Rockdale, Huntsville, Wolfe City and Honey Grove and has also served as principal at Comanche.

All interested in the Neinda Cemetery will take notice that on the afternoon of Friday, May 16, a working of the cemetery will take place and you are urged to come prepared to help clean up the cemetery.

pioneer meeting. The gathering, which will be an all-day affair, will be held at the American Legion Hall, one block east of the Anson Post Office.

Hamlin is participating in a statewide campaign to raise \$100,000 for the cerebral palsied of Texas which was launched Sunday in the state's 254 counties. Canisters for collection of funds are being placed in leading business establishments and donors may also mail contributions.

TEN YEARS AGO
(May 14, 1964)

Miss Lennie Greenway was named Hamlin's Woman of the Year for 1964 at the Tuesday evening dinner of the Hamlin Business and Professional Women's Club held at the primary cafeteria. The identity of the Woman of the Year was kept secret until the meeting.

The eighth grade graduation has been set for Friday, May 22, at 1:30 p.m., in the junior high gymnasium. Scholastic and attendance awards will be presented to pupils in their home rooms Friday morning.

Jerry W. Carlton of Hamlin is one of 750 seniors who have applied for bachelor's degrees at North Texas State University this semester. He is candidate for the bachelor of business administration degree in accounting.

Larry Quade is valedictorian and Charles Diers is salutatorian of the Old Glory High School's graduating class. Larry, son of Mr. and Mrs. Gelln Quade of Sagerton, has an average grade of 94. Charles, son of Mr. and Mrs. E. H. Diers of Old Glory, has an average of 85.3.

TWENTY YEARS AGO
(May 14, 1954)

Rains, ground soakers, gully washers, stump movers and lake fillers, the first ones of these dimensions in months and months came to the Hamlin territory the first of the week. Total precipitation for the Monday and Tuesday period measured 3.95 inches, according to the government rain gauge operated at the city pump station.

Hamlin area residents have been concerned in recent days, especially since the rains, about the possibilities of fishing in the three city lakes. The picture in not too encouraging. With three years of drouth and subsequent almost drying up of the reservoirs, the fish population hit the bottom. All three lakes were seined and the fish that formerly make fishing good were moved last year in an effort to save them from death in the drying pools.

Numbers of pioneers from the Hamlin section are expected to attend the annual meeting of the early settlers of Jones County Wednesday, May 26, at the annual

The purpose of the "Open While Pushing Down Turn" cap on the prescription bottle is to keep kids from getting dangerous pills. In practice, he says, only a kid can open the darn fool things.

The Giant

The skyline of New York, our largest city, is familiar to everyone. New York has buildings unmatched anywhere in the world, and also leads the nation in many industries. This great city typifies the success and abundance throughout our nation. God has blessed our nation.

ATTEND CHURCH

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

CONSIDER THE SOURCE

Gas and oil are being used faster
than new reserves are being
discovered. Coal is plentiful but not
inexhaustible. Nuclear is not yet
widely available.

But whatever the source of
generating fuels may be, the power
will be electricity. Cost will be higher.

But the member-owned Midwest
Electric Cooperative, first in service to
rural Texans, will continue to offer
electricity at its lowest possible price.
It's a promise we've been keeping for
more than 30 years.

ELECTRIC COOPERATIVE

THANK YOU

are well represented and respected in

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

Because of a mix-up some where down the line, word did not get out until this week that the annual All Sports Banquet will be held this Friday night. But unless you already have other plans that can not be changed, I hope that you will attend.

This has been a good sports year for Hamlin both for the boys and the girls and these youngsters and their coaches are deserving of your support. On top of that you will have a chance to hear a good speaker in Spike Dykes.

Tickets may be purchased from several sources or they can be bought at the door Friday night.

Looking back on the voter apathy for the Democratic Primary held Saturday, May 4, one can only wonder what it takes to get people to turn out for elections. Voter registration is low enough but when only about 35 percent of those registered turn out to vote, then you have to wonder.

Some years there is very little local interest but this year this was not the case as there were several locally contested races that added to a strong campaign for both the senate and the house seats from this district. It was not a matter of the candidates themselves not working to create interest as there were many active campaigns that should have drawn out the voters.

James Roberts, writing in the Andrews County News, says that his father, who he affectionately calls the Old'un used to argue that the only ballot that really drew record turnouts at the polls was one featuring someone that attracted the bile vote.

The bile bote, he explained, was the one that would make the citizen go an extra mile in order to scratch a name. It's the "agin" vote that empties the bile, vents the spleen, and lowers the blood pressure.

A study of history proves that in most instances, a record turnout at the polls occurred because people wanted to vote against something or somebody rather than for an issue or person. That's the bile vote, he says.

And maybe that was our problem in the last election, people were just not mad at anybody. But if this is true then it is a rather sad commentary on our democratic system and its future.

If our form of government is to meet the needs of its people then the people are going to have to get involved and vote for the kind of people that they think will better represent them and not just wait until some elected official makes a mess of things and vote them out in anger.

The bile vote will only eliminate a problem after it has developed, it cannot bring about good government or good representation.

Voters will be asked to go to the polls again June 1 and decide two very important races. Neither race is expected to bring out this "agin" vote but this does not mean that you can sit idly by and let someone else decide who will represent you as County Judge or as State Representative.

Now while we used Roberts' comments on the bile vote to emphasize the need for a better voter turnout in the second primary he brought up the matter for an entirely different subject. He is upset at Ralph Nader again and wants to put him on a national ballot and see if he wouldn't draw the largest anti-vote in history.

The thing that has Roberts so upset now is the new prescription bottle with a lid that he claims must have been invented by some three-

FFA Chapter Earns Top Awards At Area Meeting

The Hamlin FFA Chapter and individual members of the Chapter represented Hamlin well at the Area II FFA Convention held Friday and Saturday at Pecos High School.

The Hamlin FFA Chapter received a superior rating in the state chapter rating contest. This is the thirteenth year for the chapter to receive a superior rating, the highest rating given to a chapter by the Texas Association of Future Farmers of America. In the National Chapter Contest, the Hamlin Chapter placed first in Area II. This will allow the chapter to compete in state and national competition in the National Chapter Contest.

The Hamlin Chapter made it three out of three in winning area competition in the Building Our American Communities award program. This was the third year for the Hamlin Chapter to enter BOAC competition, and it was also the third time the chapter has won area. The chapter will now compete on state level and if it places in the top ten per cent of the state chapters will compete on the national level. This year's chapter BOAC project was working to help establish a Child Care Center in Hamlin.

Individual chapter members won six out of nine awards they applied for. Rickey Gruben was the only double winner as he won both the Crop Production and Beef Production awards which are part of the National FFA Foundation Awards Program. Other National Foundation award winners were Ricky Crowley, in Home

Improvement; George Gonzalez, in Swine Production; and Gary Neal, in Outdoor Recreation. In the Agriculture Cooperative Awards, awards available to students enrolled in the Cooperative Part-time Training Program, Gary Hertel placed first in the Farm Machinery segment of competition. Chapter members, who are winners of these awards, will now

compete on the state level as representatives of Area II.

All of the Hamlin Chapter's candidates for advanced degrees received area approval. Successful as Lone Star Farmer candidates were Randy Elmore, George Gonzalez, and Eddie Offield. George was named Runner-up from the Double Mountain FFA District in competition for the Star Lone Star Farmer of Area II. Rickey Gruben was approved for the American Farmer Degree on the area level. Only three per cent of the active FFA members in Texas can receive the Lone Star Farmer Degree, the highest degree conferred upon members by the Texas Association. Only one member out of every thousand receives the American Farmer Degree, the highest degree a member can attain in Future Farmer work.

During the Saturday morning session of the convention, Cecil Sellers received the Honorary Lone Star Farmer Degree. Mr. Sellers was cited for his outstanding service to the Hamlin Chapter and for his service to chapters in the surrounding area. Charles Sellers received the award for his father.

Members attending the convention were Randy Elmore, George Gonzalez, Richard Lee, Russell May, Shorty McIlwain, Donnie Nelson, and Eddie Offield. Richard, Russell, and Donnie served as voting delegates during the convention. Chapter advisors Milburn Wink and Gary Finley accompanied the group to Pecos.

Louis Johnson Resigns As Tax Assessor

Louis T. Johnson, Jones County Tax Assessor-Collector, submitted his resignation to the Jones County Commissioner's Court at their meeting Monday. His resignation will become effective June 30.

In a letter to the Court, Johnson said, "Many things combined have caused me to decide that my future health and personal welfare will benefit by me being relieved of the stress and responsibilities of the office."

According to County Judge Leon Thurman, the commissioners' court will make an interim appointment then the County Democratic Committee will select a nominee to be places on the ballot in the fall.

The nominee will fill two years of an unexpired term.

In the letter addressed to the Court, Johnson also said, "It has been a distinct honor and pleasure to have been entrusted with the functions of this position. I shall be forever grateful to the citizens of Jones County for selecting me to serve in the capacity, and for their many courtesies. I also appreciate the cooperation of the Court and its past and present members."

TB Program Started Here

A new community service has been made available locally to residents. The new service will be provided at the new City Hall Annex.

Each second Monday at 1 p.m. the service is offered for the eradication and control of tuberculosis on doctor's recommendation and referral. Future plans for control through a survey in high risk areas may be available soon.

An educational program for the personnel of the school will be held Friday, May 24. This will be for better understanding of treatment and control of TB through skin testing and x-ray.

Longhorns, will be the speaker. Dykes was head coach at Coahoma, Belton, Big Spring and Alice before joining the Longhorns in 1971.

Athletic Director David Bonds will introduce his coaching staff and players during the banquet. Special awards will be presented to the top individuals to highlight the program.

FROM THE FILES . . .

FIFTY YEARS AGO (May 9, 1924)

It appears that Jones County is going to build some roads. For a long time now this county has been watching other sections build roads, going through the experimental stage and now we are going the show the world what Jones County can do. The election Saturday was over overwhelmingly for the bonds. For awhile there was some doubt as to the outcome, but from the way the votes counted it now seems that this part of the county wants more and better roads. There were 1481 votes for and 244 against.

On next Thursday night, May 15, the people of the Afton community will give a good old-fashioned cream supper to secure funds to buy a piano for their church. All who can attend are invited to come.

The Herald is authorized to say that the Hamlin School Board has chosen Mr. C. G. Green of Rockdale as the head of Hamlin Public Schools for the next year. Information is that Mr. Green has served as Superintendent at Rockdale, Huntsville, Wolfe City and Honey Grove and has also served as principal at Comanche.

All interested in the Neinda Cemetery will take notice that on the afternoon of Friday, May 16, a working of the cemetery will take place and you are urged to come prepared to help clean up the cemetery.

TWENTY YEARS AGO (May 14, 1954)

Rains, ground soakers, gully washers, stump movers and lake fillers, the first ones of these dimensions in months and months came to the Hamlin territory the first of the week. Total precipitation for the Monday and Tuesday period measured 3.95 inches, according to the government rain gauge operated at the city pump station.

Hamlin area residents have been concerned in recent days, especially since the rains, about the possibilities of fishing in the three city lakes. The picture in not too encouraging. With three years of drouth and subsequent almost drying up of the reservoirs, the fish population hit the bottom. All three lakes were seined and the fish that formerly make fishing good were moved last year in an effort to save them from death in the drying pools.

Numbers of pioneers from the Hamlin section are expected to attend the annual meeting of the early settlers of Jones County Wednesday, May 26, at the annual

pioneer meeting. The gathering, which will be an all-day affair, will be held at the American Legion Hall, one block east of the Anson Post Office.

Hamlin is participating in a state-wide campaign to raise \$100,000 for the cerebral palsied of Texas which was launched Sunday in the state's 254 counties. Canisters for collection of funds are being placed in leading business establishments and donors may also mail contributions.

TEN YEARS AGO (May 14, 1964)

Miss Lennie Greenway was named Hamlin's Woman of the Year for 1964 at the Tuesday evening dinner of the Hamlin Business and Professional Women's Club held at the primary cafetorium. The identity of the Woman of the Year was kept secret until the meeting.

The eighth grade graduation has been set for Friday, May 22, at 1:30 p.m., in the junior high gymnasium. Scholastic and attendance awards will be presented to pupils in their home rooms Friday morning.

Jerry W. Carlton of Hamlin is one of 750 seniors who have applied for bachelor's degrees at North Texas State University this semester. He is candidate for the bachelor of business administration degree in accounting.

Larry Quade is valedictorian and Charles Diers is salutatorian of the Old Glory High School's graduating class. Larry, son of Mr. and Mrs. Gelln Quade of Sagerton, has an average grade of 94. Charles, son of Mr. and Mrs. E. H. Diers of Old Glory, has an average of 85.3.

The Giant

The skyline of New York, our largest city, is familiar to everyone. New York has buildings unmatched anywhere in the world, and also leads the nation in many industries. This great city typifies the success and abundance throughout our nation. God has blessed our nation.

"Blessed is every one that feareth the Lord; that walketh in his ways. For thou shalt eat the labour of thine hands: happy shalt thou be, and it shall be well with thee." Psalm 128:12

ATTEND CHURCH

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

CONSIDER THE SOURCE

Gas and oil are being used faster than new reserves are being discovered. Coal is plentiful but not inexhaustible. Nuclear is not yet widely available.

But whatever the source of generating fuels may be, the power will be electricity. Cost will be higher.

But the member-owned Midwest Electric Cooperative, first in service to rural Texans, will continue to offer electricity at its lowest possible price. It's a promise we've been keeping for more than 30 years.
